Aruba- Dutch influence still lingers on this balmy Caribbean island, part of the former Netherlands Antilles until its independence in 1986. Aruba is a contrast: the island's arid interior is dotted with cactus and windswept divi-divi trees while secluded coves and sandy beaches make up its coast. Aruba's long and colorful heritage is reflected in its dialect. Called Papiamentu, it is a tongue that combines elements of Spanish, French, Portuguese, Dutch, African and English.

Cartagena- Throughout Colombia, the Spanish Empire's influence in the New World is self-evident. Its fortress walls, quaint narrow streets, and balconied houses are all vivid reminders of Spain's hold on Cartagena and throughout the Caribbean and South America. This is the land of El Dorado and flamboyant adventurers in search of the ever-elusive gold. Cartagena's well-constructed fortifications defended its borders against seafaring pirates whose attacks lasted for more than 200 years. Today this modern and bustling city, seaport, and commercial center still boasts much of its original colonial architecture. Your journey here will provide you with a

significant link to the region's grand past.

Cruising through the Panama Canal will be one of the unforgettable experiences of your voyage. It takes approximately eight hours to navigate the 50-mile waterway linking the Atlantic and Pacific Oceans, allowing you to experience firsthand one of the engineering marvels of the 20th century. Completed in 1914, the canal marks the culmination of a dream born in 1513, when Balboa became the first European to cross the Isthmus of Panama and sight the Pacific. In 1880 Ferdinand de Lesseps and the French Canal company, builders of the Suez Canal, began construction in Panama, only to be defeated by disease, staggering cost overruns, and massive engineering problems. The French sold their claim and properties to the United States for \$40 million, a staggering loss of \$247 million on their investment. The United States began construction in 1904, completing the project in 10 years at a cost of \$387 million. Building the canal meant solving three problems: engineering, sanitation, and organization. The project, for example, required carving a channel through the Continental Divide and creating the then-largest man-made lake ever built, as well as defeating yellow fever and other tropical maladies. The United States oversaw the operation of the Panama Canal until December 31, 1999, when the Republic of Panama assumed responsibility for the canal's administration. The Panamanian government controls the canal through the Panama Canal Authority, an independent government agency created for the purpose of managing the canal.

Costa Rica- Hailed as the Switzerland of the Americas, Costa Rica occupies a unique position, lying between two oceans and two continents. On both coasts, tropical rainforests rise to the mountains of the interior, many of which soar over 13,000 feet above sea level. In the west, a seemingly endless succession of brown-sand beaches forms the nation's Pacific coast. Puntarenas is your gateway to Costa Rica's wonders - and to its capital city of San Jose.

Nicaragua- Until recent times Nicaragua was unfortunately known for the civil war (Sandinistas and Contras) that raged from the late 70s through much of the 80s. Today, the soldiers and guerrillas have given way sightseeing in a beautiful country. From strolling the cobblestone streets of colonial Granada on Lake Nicaragua, to exploring one of the many volcanoes, Nicaragua has something for even the most seasoned traveler. **Huatulco, Mexico-** Welcome to Mexico's newest resort on the Pacific Riviera. Huatulco is a tropical Eden with crystalline waters, coral reefs, and uncrowded beaches. **Puerto Vallarta** was sleepy no more; its transformation into an international resort had begun. Then director John Huston chose the village as the location for his film "Night of the Iguana," starring Richard Burton.
